

Welcome to Fertility Centre Siliguri

Trusted Fertility Centre In Siliguri For Fertility Treatments

Welcome to Fertility Centre Siliguri, where hope and dreams come together.

We understand that the journey to parenthood can be filled with emotional highs and lows, and we are here to walk this path with you.

Our dedicated team of compassionate experts is committed to providing personalized care and advanced treatments tailored to your unique needs. We believe in the power of hope, the strength of resilience, and the joy of new beginnings. At Fertility Centre Siliguri, we don't just offer medical solutions; we offer a supportive, nurturing environment where your dreams of having a family can flourish

Turning dreams into families with compassion and expertise.

At Fertility Centre Siliguri, we understand that the journey to parenthood can be filled with hope, dreams, and sometimes, heartache. We are more than just a fertility clinic; we are your partners in this deeply personal journey.

Our dedicated team of specialists, embryologists, and support staff are committed to providing compassionate, personalized care every step of the way. With advanced technology and a nurturing environment, we strive to transform your dreams into reality.

Your Health, Our Priority

Our Services

01

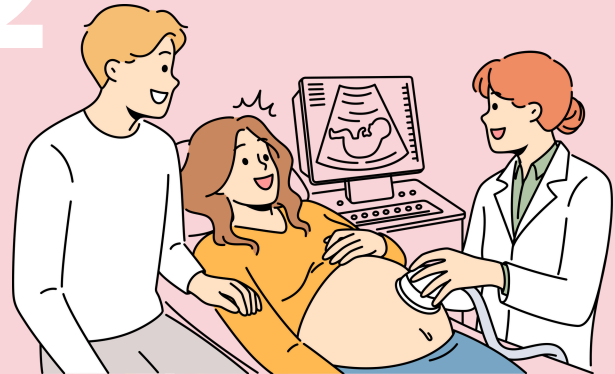

In Vitro Fertilization (IVF)

IVF is one of the most effective treatments for a variety of fertility issues. It involves combining eggs and sperm outside the body in a laboratory, then transferring the resulting embryos into the uterus. Our advanced IVF techniques and cutting-edge technology increase your chances of a successful pregnancy.

Surrogacy

At Fertility Centre Siliguri, we understand that the journey to parenthood can be filled with unexpected challenges and emotional trials. For those unable to carry a pregnancy, surrogacy offers a beacon of hope and a path to fulfilling your dreams of having a family. Our dedicated team is committed to guiding you through this deeply personal journey with compassion and expertise.

02

Intrauterine Insemination (IUI)

At Fertility Centre Siliguri, we understand the emotional journey of trying to conceive. Intrauterine Insemination (IUI) offers a beacon of hope for many couples. This gentle and less invasive procedure involves placing washed and concentrated sperm directly into the uterus around the time of ovulation, increasing the chances of fertilization.

For couples facing unexplained infertility, mild male factor infertility, or cervical mucus issues, IUI can be a significant step toward realizing the dream of parenthood.

Our Services

04

Intracytoplasmic Sperm Injection (ICSI)

At Fertility Centre Siliguri, we understand the deep longing and emotional journey that accompanies the dream of becoming parents. Intracytoplasmic Sperm Injection (ICSI) offers hope to couples facing severe male infertility, giving them a chance to experience the joys of parenthood.

ICSI involves the precise injection of a single healthy sperm directly into an egg, significantly increasing the chances of fertilization.

Preimplantation Genetic Diagnosis (PGD)

At Fertility Centre Siliguri, we understand that the journey to parenthood can be filled with unexpected challenges and emotional trials. For those unable to carry a pregnancy, surrogacy offers a beacon of hope and a path to fulfilling your dreams of having a family. Our dedicated team is committed to guiding you through this deeply personal journey with compassion and expertise.
